WHAT IS GAMMA XI PHI?

Gamma Xi Phi is a professional fraternity for men and women actively pursuing careers in the arts, including writers, musicians, actors, and visual artists. The fraternity also welcomes people with arts-serving careers, including arts educators, arts administrators, agents, and entertainment lawyers.

The purpose of Gamma Xi Phi is to unite collegiate and professional artists in the spirit of fellowship and perpetual artistic growth. Gamma Xi Phi promotes philanthropy and service to the arts,

brotherhood among all artists, and leadership development in artistic professions through collegiate and community outreach to people of color across the world.

Gamma Xi Phi is different from any other professional fraternity in that it is just as concerned with social justice and the equitable representation of artists of color as it is service to the arts industries and the professional development of its members.
